On Sunday, January 22, 2023, at 1020 hours, HCA Captain J. Thissen interviewed inmate Carroll, WB1153, 504-1201L, in a confidential setting in Building 504 in regards to her hunger strike. Inmate Carroll was encouraged to consume state food; however, she declined the offer by stating she is in fear of Central California Women's Facility (CCWF) staff contaminating her food out of retaliation. I offered Inmate Carroll pre-packaged state issued lunches; however, she declined the offer by stating she does not know who packages them; therefore, she does not trust they are not contaminated as well. Inmate Carroll was asked if she is consuming water and she confirmed she is drinking small amounts of water as she believes the CCWF water source is also contaminated. Inmate Carroll was asked why she refuses to allow medical staff to take her vital signs and/or weight during her hunger strike and she explained she fears if medical staff confirm she has lost a significant amount of body weight, "decisions" will be made on her behalf. Additionally, inmate Carroll stated she is not feeling well, but did not want to provide details as she fears it will result in "decisions" being made on her behalf. Inmate Carroll further stated she does not like to come out of her cell for medical evaluations as she believes custody staff with either search her cell and/or plant something in her cell. Inmate Carroll noted her hearing aid has been missing since yesterday, January 21, 2023. I asked inmate Carroll if she believes staff took her hearing aid or if it is possible she misplaced it. Inmate Carroll stated it is possible she misplaced her own hearing aid. I advised inmate Carroll custody and medical staff will continue their efforts to encourage her to consume food/liquids and participate in medical evaluations. Inmate Carroll stated she had nothing further to discuss and the interview was concluded.

Effective Communication: Inmate Carroll has a Test of Adult Basic Education (TABE) score of 12.9. She is a participant in the Mental Health Services Delivery System (MHSDS) at the Correctional Clinical Case Management Section (CCCMS) level of care. She is not a participant in the Developmental Disability Program (DDP). She is a participant in the Disability Placement Program (DPP) noting she is DPW (permanent wheelchair user - impacting placement) and DNH (hearing impaired - not impacting placement). Inmate Carroll's primary method of communication is "Hearing Aids;" however, inmate Carroll confirmed she could not locate her hearing aid on the date of the interview. Inmate Carroll's alternate method of communication is "Reads Lips;" therefore, I maintained at least six feet of distance between myself and inmate Carroll, removed my face mask, and faced inmate Carroll so she could read my lips. I stated, "An apple fell from the tree" and inmate Carroll repeated the statement to me; therefore confirming effective communication was achieved.
